

DATAnet.za Pop-up blocker Quick Guide

1. Internet Explorer

1. Logon to Item Manager (IM)

2. Click on Tools on the Menu & select pop-up blocker & click on pop-up blocker settings

The screenshot shows an Internet Explorer browser window. The 'Tools' menu is open, and 'Pop-up Blocker' is selected. A sub-menu is visible with options: 'Turn off Pop-up Blocker' and 'Pop-up Blocker settings'. The 'Pop-up Blocker settings' option is highlighted. Below the menu, a diagram titled '1SYNC Item Management Transaction Flow (In-Network)' is displayed. The diagram shows the flow of data between a Supplier (Data Source), IM (Source Data Pool), IM (Recipient Data Pool), and a Retailer (Data Recipient). The GS1 Global Registry is at the top. Arrows indicate the direction of messages: 'Request Create Item', 'Catalog Item Submission', and 'Catalog Item Subscription' from IM (Source) to GS1; 'Response Message GS1' from GS1 to IM (Source); 'Item Link Message & Response', 'Item Publish Message & Response', 'Item Sync Error', and 'Accept/Reject' from IM (Source) to Supplier; 'Catalog Item Notification' and 'Catalog Item Confirmation' from IM (Recipient) to IM (Source); 'Subscription Message & Response' from IM (Recipient) to Retailer; and 'Catalog Item Notification' and 'Catalog Item Confirmation' from Retailer to IM (Recipient).

- Type *.1sync.org on the Address of website to allow & click on Add (*.1sync.org will appear on the Allowed sites list)

The screenshot shows the 'Data Sync Overview' page in the World SYNC application. A 'Pop-up Blocker Settings' dialog box is open, displaying a list of 'Allowed sites' which includes *.1sync.org. The background page contains text explaining the GDSN and 1SYNC data flow, and a diagram illustrating the communication between a 'Supplier (Data Source)' and a 'Retailer (Data Recipient)' through various message types.

- Click Close & start capturing data

2. Google Chrome

- Logon to Item Manager (IM)

The screenshot displays the 'Item Management' login interface. It includes the World SYNC logo and the text 'Item Management'. The login form contains a 'Username' field with the value 'training11@preprod' and a 'Password' field with masked characters. A green 'Log In' button is located below the password field. A link for 'Forgot Password?' is provided, along with contact information for customer support: 'Access problems? Please call Customer Support toll-free at +1 866.280.4013, option #2, option #2.'

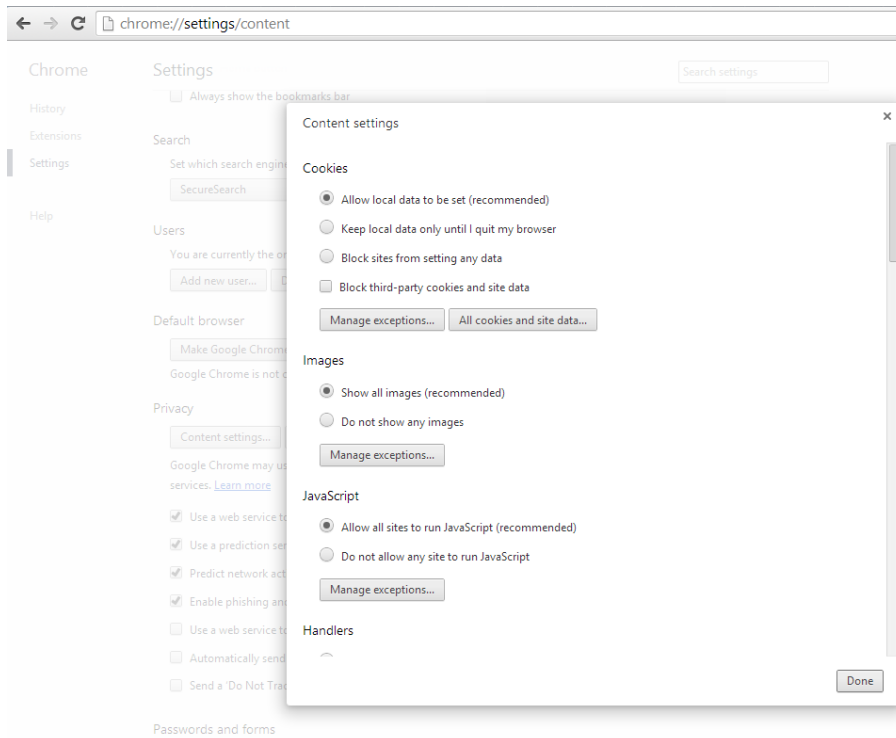

2. Click on Tools on the Menu & click on settings

The screenshot shows a web browser window displaying the 'Data Sync Overview' page. The page title is '1WorldSync, Inc. [US] https://item.preprod.1sync.org/imgui/action/selectgln.do?method=search'. The page content includes a navigation menu on the left, a main heading 'Data Sync Overview', and a diagram titled '1SYNC Item Management Transaction Flow (In-Network)'. The diagram illustrates the flow of data and messages between a Supplier (Data Source), IM (Source Data Pool), GS1 Global Registry, IM (Recipient Data Pool), and a Retailer (Data Recipient). The Chrome menu is open, and the 'Settings' option is highlighted.

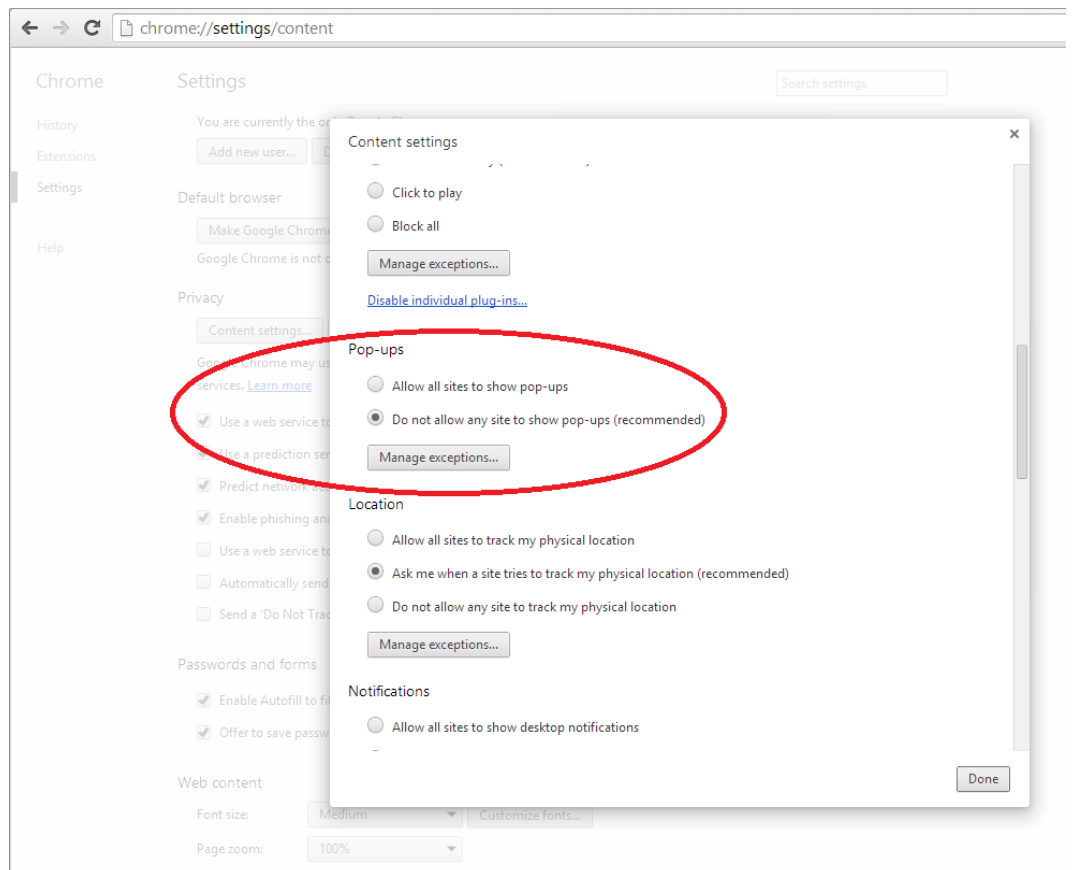

3. At the bottom of Chrome settings, click on Advanced settings at the bottom of the list

The screenshot shows the Chrome Settings page. The page title is 'chrome://settings'. The page content includes a search bar, a list of settings categories (History, Extensions, Settings, Help), and a list of settings. The 'Show advanced settings...' link is highlighted with a red circle.

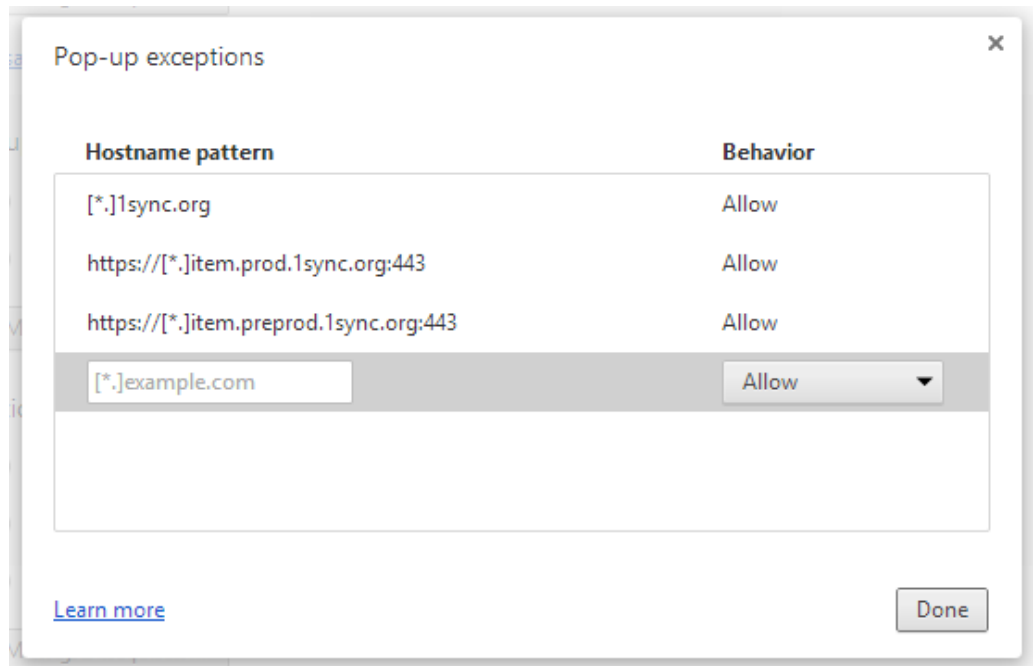

4. Scroll down to Privacy & select Content settings

5. Scroll down to Pop-up section & click on Manage exceptions

6. Type `[*.]1sync.org` & select Allow & click Done (1sync exception will be added to the list) to double check click on Manage exception & confirm 1sync is added

7. Click on Done to exit Content settings & Done to exit Privacy & continue to IM to load product data
