

GS1 Training Request Form

Mar 2017 - Mar 2018

GS1 South Africa has various onsite or classroom based training packages on offer. Choose from packages below:

GS1 Standards Training

Improve your knowledge of the GS1 Standards, join us for this course covering our various standards and the GS1 General Specifications which is the core standards document of the GS1 System. Improve supply chain efficiencies, reduce costs, and improve relationships with customers and trading partners.

GTIN Management Standards Training

Branding and positioning of products is ongoing, decisions on when to change a barcode comes up, this workshop allows attendees to get hands on understanding of the GTIN Management Standard, which forms the basis on whether or not a new GTIN needs to be assigned, based on changes to an existing product, promotion, or new product introduction. An understanding of the rules is a "must have" for those that manage GTIN assignment to ensure that any scanned barcode can be associated with accurate, up to date, data.

GS1 AIDC in Healthcare Training

Today, healthcare providers need to ensure high quality patient care matched with thorough managed, well-structured supply chains all whilst saving time and costs, GS1 barcodes and standards are foundational to assist healthcare manufacturer's distributors, hospitals pharmacies and more. This training gives users the edge in terms of barcodes and healthcare products of all types.

Barcode Quality & Verification Training

Quality barcodes means more surety and a less problematic supply chain performance. Testing barcodes by means of an appropriate barcode verifier, prevents those unwanted costs which are associated with noncompliance and promotes stronger trade partner relationships. This workshop focuses on areas which are crucial to promote quality barcodes and how a verifier supports and assists the perfect print process.
