IT's (DATA) QUALITY TIME!

Once you are successfully assigning barcodes (GTIN's) to your products and have a good understanding of the GS1 standards and guidelines, it is necessary to start focusing on your data quality.

DATAnet.za is an electronic central data repository, utilized by various industry sectors to capture non-competitive static product data, which is required by data Recipients (retailers, hospitals, logistics planners etc) for listing, shelf space planning and the designing and building of warehouses and DC's.

This is a one day, hands-on, computer-based course aimed at ensuring that Manufacturers and Suppliers know:

- WHAT** information is required?
- HOW** to enter this information on the system,
- WHO** will be utilizing this data?

On completion of the course, a user will:

- Understand the role of the DATAnet.za platform in the trade environment as a tool for exchanging accurate product information,
- Know what information is mandatory for listing purposes and how to obtain this information,
- Have a good understanding of how to get started with the DATAnet.za process.

Be sure to book early, places are limited.

Who Should Attend?

1. People responsible for managing Product Data within a company
2. Master Data Management teams
3. Person's responsible for the actual capturing of product data
4. Companies that wish to become certified Data Controllers/3rd Party Data Recipients (*Transport and Logistics sector*)/Data Recipients (*POS and retailer data analysis companies*)

Terms and conditions of booking:

This booking will only be considered **CONFIRMED** once you have received a confirmation from our offices.

1. Sessions run from 09:00 to 16:00 and Registrations run from 08:30 to 09:00.
2. Delegates are required to bring their own laptops to the workshop. The laptop specification sheet is attached and must be complied with to eliminate disruptions in the session due to computer functionality.
3. GS1 South Africa reserves the right to postpone workshops if the delegate numbers are not met. Delegates who have booked and paid will be notified timeously.
4. Refreshments and a light lunch will be provided.
5. Please note that early booking is essential as seats are limited.
6. **Full payment must be received before the training date.**
7. Cancellations will only be accepted up to 3 working days before the event.
8. Bookings close 5 working days before the training.
9. **Delegates for whom confirmed bookings have been made but who do not attend the training or cancel outside the timeframe will forfeit their payment.**
10. It is recommended but not compulsory that delegates understand bar-coding principles, and attend the barcoding workshop conducted by GS1 prior to attending the DATAnet.za Training.
11. Attendance of the DATAnet.za course is mandatory for any company that wishes to gain access to the DATAnet.za system and synchronise data between trading partners

Computer system requirement – Important: Please bring your own laptop to the training.

To reduce the complexities of the different operating systems used in businesses please ensure that the following configurations are enabled on your laptop:

1. **Laptop MUST have Wi-Fi capabilities.**
2. **Some anti-virus software has their own pop-up blocker so please check with your IT Department if that is the case & ask them to assist prior to attending training.**

Browser	Pre-requisite
Internet Explorer 7,8,9,10	Pop-up blocker setting must include *.1sync.org & have Latest Microsoft Silverlight installed
Google Chrome	Pop-up blocker setting must include *.1sync.org & have Latest Microsoft Silverlight installed
Firefox	Pop-up blocker setting must include *.1sync.org & have Latest Microsoft Silverlight installed
Safari	Pop-up blocker setting must include *.1sync.org & have Latest Microsoft Silverlight installed
Any other browser	Pop-up blocker setting must include *.1sync.org & have Latest Microsoft Silverlight installed

Silverlight is not compatible with any Mobile device. This includes iPad/iPhone and any other tablet or phone device.

Browser must be one of the following: IE 7+, Google Chrome, Firefox (These are tested browsers. Others might not work)

Latest version of Microsoft Silverlight **must** be installed.
